

Aviation Safety Seminar

Do you, as a pilot, perform maintenance on your aircraft? If so, are you aware of just what you can and can't do? This class is a review of the requirements in FAR Part 91. We will cover exactly what maintenance you can perform, whether you need oversight, and how to document it correctly. Our speaker, Scott Royal, is an aviation maintenance technician with Inspection Authorization, a FAA Safety Team Representative, and an aircraft owner. Come learn from a pro.

Directions: Take the Cook's Corner exit off Rte 1 in Brunswick, ME. Go right at the light. Then take a left at the second light onto Fitch Ave (you will be entering the airport). Proceed to Orion St. Turn right and take Orion St to stop sign. FBO Building is just ahead.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
